

Below is a sample of a completed application for membership and questionnaire for voluntary work for the DDF. The information is fictional and is only provided as a guide. The sample questionnaire reflects a high level of education and skills. Few real live volunteers can expect to have such high skills even if they would be welcome. More important for our volunteers is a belief in what the DDF is trying to achieve and a willingness to support those goals in whatever way possible.

The DDF believe that people can only give that which is possible. So we are interested in obtaining a general picture of who you are and how you can assist us and in being aware of the limits you may place on your interactions with the DDF. We don't wish to ask of you what you can't give

Community: ..Tell us a bit about your social and community connections..

Central to all political parties are membership and funding. The DDF's goal is to have as many members as possible, each member donating whatever they wish to in support of our goals.

If you wish to volunteer we will welcome your help.

Volunteer Information and Membership Application
